Information correct at time of print

Learning languages is fun, even if you're really, really small.

Baby music courses:

Designed to introduce the littlest learners to their first words and sounds in English with an emphasis on bonding and discovery. We'll also take a break in the middle of each class so that the grown-ups can have a chance to relax and connect with each other.

English courses for kindergarteners:

Designed for hands-on learning through play, movement and song. Each week will be a mix of familiar songs and a new theme based on the world outside the classroom door.

Mairi Bunce is the owner of Salzkammergut English. She's a qualified language trainer, freelance writer, and parent to two little people. Originally from Scotland, she's lived in Austria since 2014. She's worked in schools, kindergartens and as a private English tutor. She hopes to make English Play + Learn an activity that both children and grown ups look forward to, to build her small students' confidence, and to start a lifelong love of learning languages.
